

ROOSEVELT RAPS JUDGE IN NOTE ON BEEF TRUST

Tells Congress Ruling Favoring Packers Was a Miscarriage of Justice.

WASHINGTON, April 18.—In a special message to Congress today President Roosevelt declares that the result of the recent trial of the beef packers in Chicago was a "miscarriage of justice," and that the interpretation placed by Judge Humphrey on the will of Congress "is such as to make that will absolutely abortive."

The message, which is not sensational in character, is based largely on a letter to the President from Attorney-General Moody in which the latter reviews the proceedings of the case of the Government against the beef packers. Calls for Action.

The President says it is clear that no criticism attaches to Commissioner Garfield, as what he did was in pursuance of a duty imposed on him by Congress. He refers sharply, however, to the decision of Judge Humphrey, saying that Congress could not have foreseen such a decision and that he can hardly believe that the ruling of Judge Humphrey will be followed by other judges.

He declares that such interpretation of the law as that placed on it by Judge Humphrey "is a measure of the law a farce," and he recommends that Congress pass a declaratory act stating its real intention.

The President also requests Congress to confer upon the Government, by statute, the same right of appeal in criminal cases which the defendant now enjoys, where the merits of the case have not been determined.

In the message he says: "There seems no good reason why the Department of Justice, the Department of Commerce and Labor, and the Interstate Commerce Commission should not, for the common good, proceed within its own powers without undue interference with the functions of the other. It is, of course, necessary, under the Constitution and the laws, that persons who give testimony or produce evidence, as witnesses, should receive immunity from prosecution."

Defects the Law.

"It has hitherto been supposed that the immunity conferred by existing laws was only upon persons, who, being subpoenaed, had given testimony or produced evidence, as witnesses, relating to any offense with which they were, or might be, charged."

But Judge Humphrey's decision is, in effect, that if either the Commissioner of Corporations does his duty, or the Interstate Commerce Commission does its, by making the investigations of which they are required, though they issue no subpoena and receive no testimony or evidence within the proper meaning of these words, the very fact of the investigation may of itself operate to prevent the prosecution of any offender for any offense which may have been developed in even the most indirect manner during the course of the investigation.

Help the Canning Rich.

"In offenses of this kind it is at the best, in effect, to execute justice upon offenders. Our system of criminal jurisprudence has descended to us from a period when the dominant idea was that the accused should not have his rights adequately preserved, and it is admirably fitted to meet this danger. But at present the danger is just the reverse; that is, the danger nowdays is not that innocent men will be convicted of crime, but that the guilty man will go scot-free."

This is especially the case where the crime is one of greed and cunning, perpetrated by a man of wealth, in the course of those business operations where the code of conduct is at variance not merely with the code of humanity and morality, but with the code as established in the law of the land."

AERO CLUBMEN TAKE FIRST TRIP IN A BALLOON

Three Officials Accompany De La Vaulz in the Centaur.

(Special to The Evening World.)
PITTSFIELD, Mass., April 18.—The big balloon Centaur, in whose car Count De La Vaulz, Augustus Post, Alvin R. Hawley and A. M. Herring, members of the Aero Club of America, were to make their voyage today, was brought out to the balloon field at 10 o'clock to-day, and shortly after the gas was turned on.

The ascent was made at 12:30. The wind is west by southwest and the aerial navigators ought to make an almost direct voyage across the center of Massachusetts. It is not impossible that a flight of fully 100 miles will be made. The weather conditions are perfect.

The arrangements for the ascension were kept a profound secret until last night, because of the noisiness which had been given after the first attempt to sail the Centaur. Corland Field, who arrived here this morning, says within a week another ascension will be made from here, and during the summer the club will offer prizes for competitions from Pittsfield, which has been selected as the permanent balloon field of the Aero Club.

The President says it is clear that no criticism attaches to Commissioner Garfield, as what he did was in pursuance of a duty imposed on him by Congress. He refers sharply, however, to the decision of Judge Humphrey, saying that Congress could not have foreseen such a decision and that he can hardly believe that the ruling of Judge Humphrey will be followed by other judges.

He declares that such interpretation of the law as that placed on it by Judge Humphrey "is a measure of the law a farce," and he recommends that Congress pass a declaratory act stating its real intention.

The President also requests Congress to confer upon the Government, by statute, the same right of appeal in criminal cases which the defendant now enjoys, where the merits of the case have not been determined.

In the message he says: "There seems no good reason why the Department of Justice, the Department of Commerce and Labor, and the Interstate Commerce Commission should not, for the common good, proceed within its own powers without undue interference with the functions of the other. No. 22. THE WORLD'S "GIBSON GALLERY."

(New Gibson heads will be presented in the Morning World and Evening World several days each week. Watch for them and cut them out for your scrapbook.)

This Picture Drawn by Charles Dana Gibson.

The Fortune Teller

is the title of next Sunday's Gibson picture. It is the famous Old-Man-and-Child drawing that has been so widely admired for the story that it tells.

Charles Dana Gibson's old men are almost as characteristic as his women, though they are not so famous, probably because there is no romance about the aged, and therefore their pictures appeal to fewer persons than those of young women. But they are no less worthy of study than his women, for they are models of strong drawing. Here is a picture that appeals by its very simplicity. The contrast of extremes, childhood and senility, was never better shown; the gravity of the wee fortune-teller and the indulgent amusement of his rugged subject are, as it were, complimentary; and the story told by the cards explains the good-humored laugh on the old man's face.

This is another of the \$1,000 drawings secured from Collier's, and it will be given as a separate Art Supplement, on fine paper, with every copy of next Sunday's World.

Buy Next Sunday's World.
